Telephone: 01325 380754

Head Teacher: Paula Strachan

Tuesday 27th February

Dear Parents and Carers,

Please find below some useful maths questions to which every upper key stage two student should know the answer. Please keep this information to hand and when and where possible, ask and rehearse the questions and answers with your child. Knowing quickly the answers to these questions will help the children with their understanding of the maths curriculum and ultimately the SATS that they take at the end of year six.

25 things every 10 year old should know..

.....and most don't.

1. Know all times-tables up to 12x12
2. How many weeks in a year?
3. How many days in the different months of the year?
4. How many days in a fortnight?
5. What is a 4 sided shape called?
6. How many years in a decade?
7. How many months in a year?
8. How many centimetres in a metre?
9. How many hours in a day?
10. What is a 6 sided shape called?
11. How many eggs in a dozen?
12. How many degrees in a right angle?
13. What do the internal angles of a triangle add up to?
14. How many millimetres in a centimetre?
15. How many metres in a kilometre?
16. What time is [?] on a 24 hr clock?
17. How many centimetres in a foot?
18. How many years in a century?
19. How many millilitres in a litre?
20. How many grams in a kilogram?
21. How many kilometres in a mile?
22. How many centimetres in an inch?
23. How many pounds in a kilogram?
24. What is a 5 sided shape called?
25. How many days in a year?

"All children, by the end of year 4 are expected to be able to recall multiplication and division facts for multiplication tables up to 12x12."

Statutory requirements – Primary National Curriculum

Thank you for your support in this matter.

Mrs. Lindsay

Deputy Head Teacher and Maths Lead

(P.S. For your information: the answers are on the reverse of the letter!)

25 things every 10 year old should knowand most don't.

The Answers

- | | |
|--|--------------------|
| 1. Know all times-tables up to 12x12 | MATHexcellence |
| 2. How many weeks in a year? | 52 weeks |
| 3. How many days in the different months of the year? | 30 days has Sept.. |
| 4. How many days in a fortnight? | 14 days |
| 5. What is a 4 sided shape called? | Quadrilateral |
| 6. How many years in a decade? | 10 years |
| 7. How many months in a year? | 12 months |
| 8. How many centimetres in a metre? | 100cm |
| 9. How many hours in a day? | 24 hours |
| 10. What is a 6 sided shape called? | Hexagon |
| 11. How many eggs in a dozen? | 12 eggs |
| 12. How many degrees in a right angle? | 90 degrees |
| 13. What do the internal angles of a triangle add up to? | 180 degrees |
| 14. How many millimetres in a centimetre? | 10mm |
| 15. How many metres in a kilometre? | 1000m |
| 16. What time is [?] on a 24 hr clock? | Add twelve |
| 17. How many centimetres in a foot? | 30cm |
| 18. How many years in a century? | 100 years |
| 19. How many millilitres in a litre? | 1000ml |
| 20. How many grams in a kilogram? | 1000gms |
| 21. How many kilometres in a mile? | 1.6 km |
| 22. How many centimetres in an inch? | 2.5cm |
| 23. How many pounds in a kilogram? | 2.2lbs |
| 24. What is a 5 sided shape called? | Pentagon |
| 25. How many days in a year? | 365 days |

"All children, by the end of year 4 are expected to be able to recall multiplication and division facts for multiplication tables up to 12x12."
